SUBJECT

F56 Make Good Program: Install Accessory Roof Graphic or Mirror Caps

MODEL

F56 (MINI Cooper Hardtop and Cooper Hardtop S)

INFORMATION

One of MINI's iconic design attributes is the contrasting color of the roof and mirror caps to that of the body color. This enabled MINI to be easily identified on the race circuits, starting in the late 1950s through today. This design attribute is one near and dear to the hearts of our Motorers.

SITUATION

Due to production restrictions at Plant Oxford, certain F56 vehicles produced in May and June of this year cannot be built with the factory option for the contrasting roof and/or mirror caps.

This production issue was caused by the plant expanding its paint capabilities to meet increasing vehicle demand.

In a continuing effort to maintain the utmost in Motorer satisfaction, MINI USA is offering our dealer partners an alternative solution, the "Make Good" program.

For all affected MINI F56 vehicles:

- Produced from May 1, 2014 to June 30, 2014
- and
- Built without the factory order "Contrasting Roof and Mirror Caps" option (382 and 383)

Your MINI dealer can offer these Motorers the installation of an accessory roof graphic or set of mirror caps.

The Motorer has the choice of either the accessory roof graphic or exterior mirror caps, not both.

MINI Area Manager (AM) "Field Authorization" (FAS) is not required.

NEW Note: For eligible vehicles (VINs) that are affected by this production restriction, the procedure outlined in this bulletin only applies to mirror caps or roof graphics installed by your dealer.

NEW Mirror caps or roof graphics installed through the MINI USA "VIA" (VDC-Installed Accessory) program are not eligible for reimbursement through this Make Good Program.

PROCEDURE

NEW This offer is only valid for Motorer Sold, P1 (Priority One) units. As a result, this "Make Good" **dealer-installed** accessory can only be offered:

1. 1. During the building process for Motorers that have placed a deposit on their order
2. 2. On in-stock units built during May or June 2014 that have become Motorer Sold units and did not originally have the ability to be built with a contrasting roof or mirror caps.

Submit for the MINI accessory installation via the process outlined below in the Warranty Information section.

MINI USA will review the corresponding claim submissions to verify the MINI vehicle's eligibility. Claim submissions on ineligible MINI vehicles will be subject to chargeback.
