To: All MINI Parts and Service Managers

Re: (Update) Steering Spindle 32 30 6 763 722

Our colleagues in Germany have released a replacement part for the MINI Steering Spindle. These spindles have arrived at our US warehouses and all backorders prior to this message have been fulfilled.

As a reminder, all backorders without a VIN listed as the PO has been cancelled, no replacement order will be entered by BMW NA.

Service Information M32 02 14 bulletin has been released regarding the instructions and part numbers needed for this repair. However, the part numbers involved in this repair are blocked from dealer ordering.

Because of the very limited supply on these parts, we have implemented a VIN-specific parts ordering process for this Steering Spindle due to Service Information M32 02 14. This Service Information involves all R50, R52 and R53.

All requests must be emailed to SpecialPartsRequest@bmwna.com. The email must contain the following information:

Subject line – Steering Spindle
Center Number and location code where the part should be delivered
Contact Information – Name, Phone number
VIN – Last Seven (7) digits

Please do not call or email the PTG on this topic as they do not have any additional information.

All orders will be placed in the order they are received. Orders received after Local VOR cut off time will be shipped the following day. Multiple requests for the same VIN will be cancelled.

Thank you,

Parts Logistics
