Complaint

Windscreen breaking away at the fastening points

Cause

The fastening concept for the windscreen is insufficient.

Measure

All windscreens for the R 1200 GS (K50) and the R 1200 GS Adventure (K51) have been changed.

From 06/2014, new windscreens with a new fastening concept will be fitted ex works.

The construction status can be recognised by the part number on the windscreen.

See the pictures in the attachment.

When repairing vehicles with the older construction status, the new windscreen must only be fitted in conjunction with all the fasteners listed below:

1 x left cover 8556013

1 x right cover 8556014

1 x left bracket 8556015

1 x right bracket 8556016

4 x grommets 8557871

6 x screws 8531936

Fit in accordance with the enclosed sheet and the attachment.

From 07/2014, only the new construction status will be listed in the EPC.
