
After folding the backrest in the rear compartment the seat belt of the middle rear seat may be locked.

Topic number	LI91.40-P-050719
Version	3
Design group	91.40 Seat belts, emergency tensioning retractors
Date	04-25-2014
Validity	117, 176, 204, 205, 246, 212
Reason for change	Remedy and model series updated
Reason for block	

Complaint:

After folding the backrest in the rear compartment the seat belt of the middle rear seat may be locked.

Cause:

Fold lock is still active

Remedy:

All

1. Pull the seat belt out approx. 20 mm at the belt outlet on the backrest and let go. The seat belt is unlocked. See owner's manual.

S212 only

2. In order to ensure that the seat belt is unlocked, the end stop (button) in the belt strap can be moved up by 2 cm. See attachment.
