

## **OWNER NOTIFICATION**

Dear Nissan Rogue Owner:

Nissan is committed to providing the highest levels of product safety, quality and customer satisfaction. With that in mind, we want to bring to your attention important information regarding a voluntary service campaign being conducted by Nissan to replace the engine on/off push button in your vehicle.

### **REASON FOR SERVICE CAMPAIGN**

The engine on/off push button in your vehicle may have been damaged during the manufacturing process. The issue does not affect normal starting or regular operation of the vehicle. However, in rare instances, this may cause difficulty in shutting off the engine.

### **WHAT NISSAN WILL DO**

To assure your continued satisfaction and confidence in your vehicle, Nissan will replace the engine on/off push button with a new one at an authorized Nissan dealer at **no charge to you for parts or labor**. The service could take up to 1 hour to complete, but your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

### **WHAT YOU SHOULD DO**

Nissan encourages you to contact your Nissan dealer at your earliest convenience in order to arrange an appointment.

**To minimize any inconvenience to you, it is important that you have an appointment before bringing your vehicle to the Nissan dealer for service.** Please bring this notice with you when you keep your service appointment. Instructions have been sent to your Nissan dealer.

If you have additional questions you may contact the National Consumer Affairs Department, Nissan North America, Inc., P.O. Box 685003, Franklin, TN 37068-5003. The toll free number is 1-800-NISSAN1 (1-800-647-7261).

Thank you for providing us an opportunity to ensure on-going satisfaction with your Nissan vehicle.
