Memorandum

To: All Dealers

From: Robert West

Subject: Minotour Chassis Assignments – USA & Canada

Date: May 02, 2014

Effective Monday May-05-2014 the primary contact for Minotour chassis assignment and ordering will be Kevin Clark. Stephanie Patterson will remain in a supporting role and will assist Kevin in the transition of all functions involved in Minotour chassis.

Kevin's contact information: phone number is 336-841-5731

Email : Kevin.L.Clark@daimler.com

Kevin is available 7.00am – 4.00pm and support coverage will be provided on days when Kevin is out of the office.

When addressing emails to Kevin, please copy Bob West (Robert.west@daimler.com) so we can provide back up when he is not available.

Kevin has been involved in the chassis process but at this stage is not fully conversant with all processes so we ask for your patience during the transition.

For Canadian and special order chassis we request that you submit your request via email, providing chassis specs, quantity and whether for your inventory or a specific customer. Canadian chassis are ordered only when requested. Unlike the USA, we do not carry bailment chassis inventory for Canada.

We thank you for your Minotour business and look forward to helping you grow this market.
