Parts Information Bulletin

Subject: BMW Motorrad Battery Charger

BMW Motorrad has a introduced new battery charger for charging and maintaining all types of motorcycle batteries.

High-quality, microprocessor controlled battery charger and maintainer protecting the battery during long periods of storage.

- Suitable for:
  - Ordinary lead-acid and maintenance-free (gel or AGM) batteries with capacities between 6 and 25 Ah
  - Motorcycles with CAN bus technology
- Charging from the motorcycle's on-board socket or with the included adaptor cable connected directly to the battery terminals
  - Fully automatic, controlled by the microprocessor
  - The charger can remain connected for long periods. Charging cycles are run, the battery is monitored and recharged as necessary
- Protection against short circuit, polarity reversal and overload
- Display of battery charge status and charger activity
  - Touchpad controls for changing settings.

Technical data

- Operating voltage: 110V/60Hz AC
- Charge voltage: 12V DC
- Maximum charge current: 2.5 A
- Charge termination voltage: 14.4V DC
- Dimensions (LxWxH): 5.3x4.7x2 in

Description	Part number	MSRP
Battery charger, 110V	77 02 8 551 897	$175.95
