REMOTE START/STOP FOR MANUAL TRANSMISSIONS

Freightliner Trucks offers a remote start/stop option for vocational trucks

Freightliner trucks is now offering a remote start/stop feature on vocational vehicles with manual transmissions. This new option is currently available to order in SpecPro as of July 2014.

What is it?

- Remote start/stop input controls for vehicles with a manual transmission
- Option similar to the existing automatic transmission systems
- Up-fitter connects controls to the factory installed wiring; option is controlled via a switch or button mounted onto the body

Why is it important?

- Allows transmission options previously unavailable with remote start/stop
- Remote start/stop on Eaton manual and automated manual transmissions

Availability:

- M2106, M2112, 108SD and 114SD

Key Applications:

- Fire/Emergency
 - Utility
 - Crane

Key Benefits:

- A vocational vehicle with the convenience of a remote start/stop feature
