Re: Hopper upgrade campaign for certain model year 2012 and 2013 AHV
model trailers

Trailer Serial #

IMPORTANT FREE UPGRADE NOTICE

Dear Owner of STOUGHTON Brand Grain Hauler Trailer:

In our continuing effort to improve our trailers we are recommending and offering upgrades on the 2012 and 2013 model year hoppers. These upgrades are intended to extend the life of your hopper and would be performed at no cost to you as a Stoughton Trailer customer.

The upgrades may include one or all of the following depending on your trailer's history. Stoughton will modify the front attachment of the suspension subframe on all trailers covered by this campaign. This will be performed according to Stoughton repair document RD-00040. Stoughton will also add a steel reinforcement plate to the structure inside the lower rail in the area just forward of the front hopper if needed. This will be performed according to Stoughton repair document RD-00037. If your hopper has an aluminum suspension we will also be upgrading the subframe brackets. This will be performed according to Stoughton repair document RD-00041.

These upgrades will be provided at no charge to the trailer owners when performed at a participating dealer or authorized repair shop. Attached is a list of participating dealers and authorized repair shops. Please contact one of them to schedule an appointment to have the work done.

If you no longer own this grain trailer, please contact Stoughton so we can provide the new owner this information. If you are the lessor of this vehicle, please forward a copy of this notice to the lessee.

If you have any questions, please contact Stoughton Customer Service and Warranty Department at:
