Das Auto.

Workshop Equipment **Number: VSE-14-10**

Subject: Programming Control Modules using wiTECH™ **Date: May 20, 2014**

Supersedes VSE-13-17 dated October 2, 2013 to update wiTECH™ software version.

Note:

Be sure the wiTECH™ Desk Top client is at its latest version V13.04.13.
Refer to VSE -14-08 for instructions on removing and installing latest version of wiTECH™.

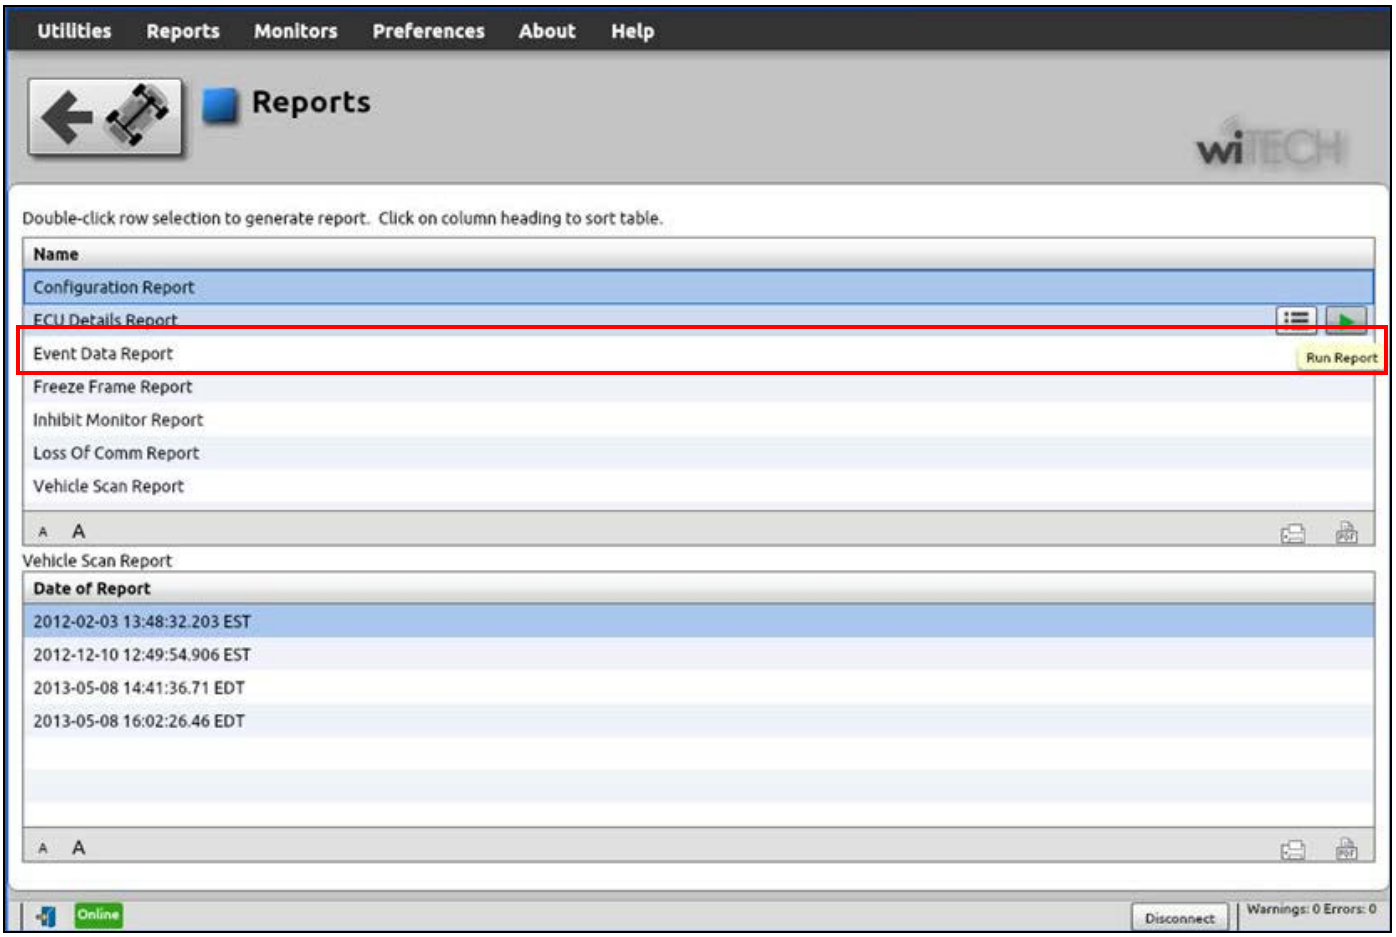

Procedure:

1. Connect STAR Mobile pass through to vehicle / Key On.
2. Launch wiTECH™ application on laptop.
3. Login to Dealer Connect and press Finish

7. Click on the ECU to check the flash part number.

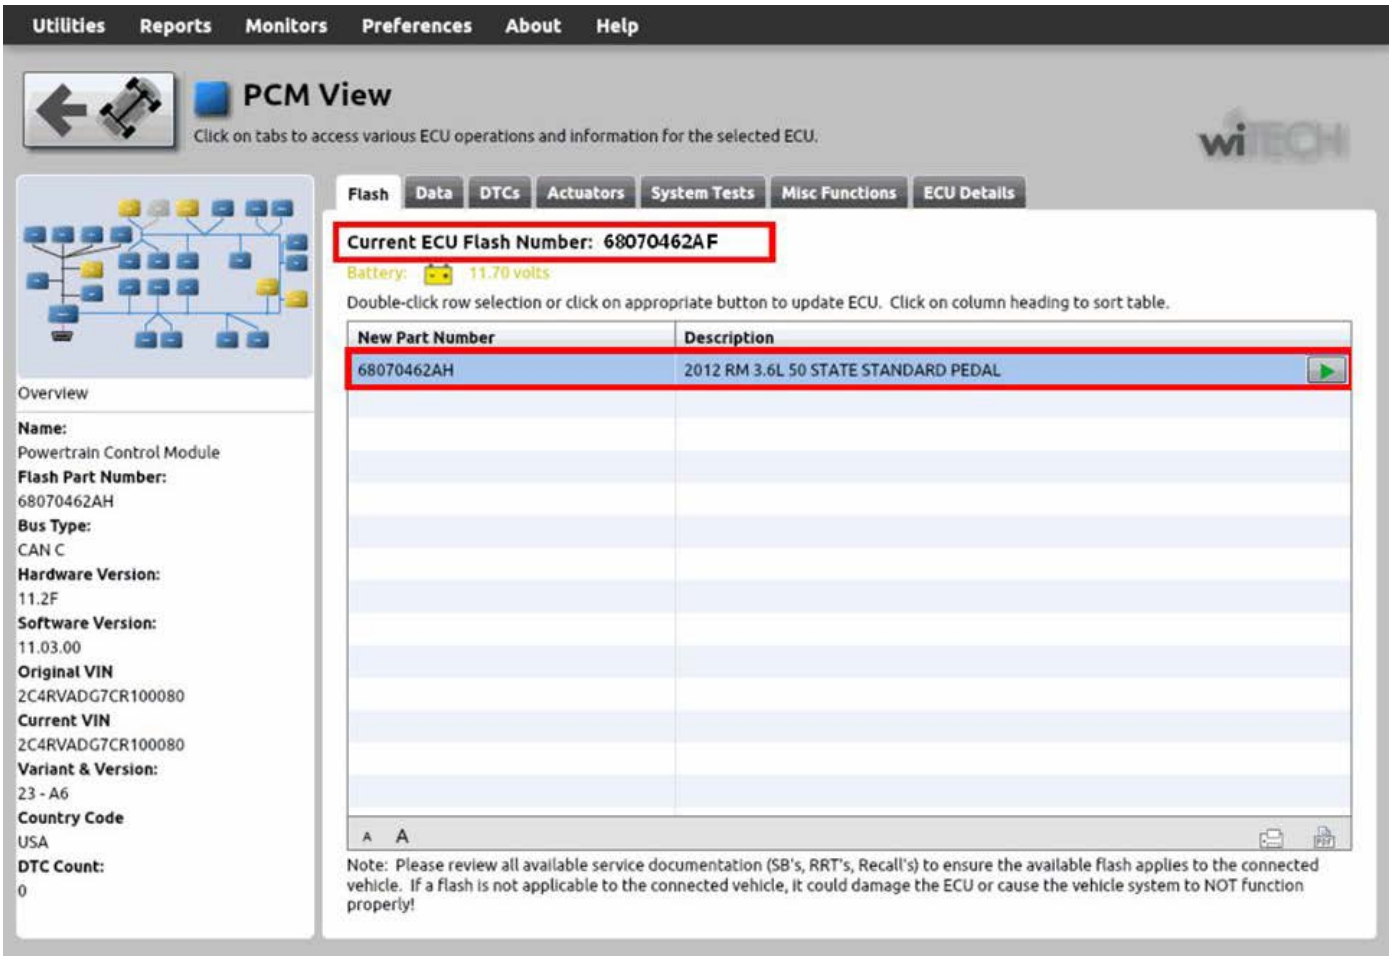

Tip:
During a programming event you may notice updated programming available for other control modules. Available updated programming MUST be supported by a technical bulletin which will contain the necessary labor operations and time units to be submitted for reimbursement.

Note:
Always connect a battery charger or maintainer when performing ECU updates.

8. Check the current ECU part number and compare to the New part Number.
9. If the number is the same the update is not needed.
10. Proceed with update if new part number supersedes current part number.
11. Highlight the flash file and then click on the arrow button at the end of the row to begin the reprogramming process.
