Number: VSP-14-01

Subject: Monroney Label Placement

Date: June 04, 2014

Monroney Labels (Window Stickers) have been relocated to the front windshield on all models (excluding Passat).

Please do not move or relocate the Monroney label during PDI.

The Monroney label location has been changed from the driver's side rear window to the windshield lower right corner on all models (excluding Passat). This has been done in order to create a common label placement location across all models, and to also prevent damage that may occur to the side window seals if the window is operated while the label is adhered to it.
