Audi Audi Technician Report

Q5/Q5 hybrid/SQ5/Q5 TDI

Stock No.	Dealer Number	R.O. No.					
VIN	Road test mileage out		Road test mileage in				
All items must be completed prior to customer delivery by an Audi technician (for Audi Q5 hybrid, only "Hybrid Aware" techs are able to PDI the hybrid) *Refer to the Special functions tab of ODIS Diagnosis using GFF for the PDI function tests **Audi recommends using an Audi approved battery charger to prevent excessive battery discharge during inspection		Trunk Inspection ☐ Install wheel bolt cover removal tool from PDI kit and wheel lock key (if applicable) into trunk tool kit behind spare tire. Please note that in the hybrid it is located on the luggage floor on the right side ☐ Verify operation of luggage cover					
				Open Campaigns/Updates		Exterior	
				 □ Check Elsa for open campaigns and updates. Perform campaigns not requiring SVM if applicable. Campaigns requiring SVM should only be performed after the vehicle has been taken out of transport mode ■ Battery Inspection □ Check battery clamps for proper torque. Re-torque if required 		☐ Test windshield wa	shers (front and rear) for aim and function
☐ Turn on headlights and test headlamp washers (if equipped)							
☐ Test exterior lighting functions							
not install the carr requested). Repack	strips to the top of the base carrier bars (do ier bars on the vehicle unless customer has kage the bars into the box if they are not						
_ , , , , , ,	•	being installed on					
Perform the A-battery test for new batteries using GFF in ODIS Diagnosis -> Special functions -> Service work. Select option 2, the battery test for new batteries as part of the pre-delivery inspection and act according to the test result (ok, recharge, replace). Ensure diagnosis log is uploaded to the GFF paperless server by selecting "ok" when tester wants to send the current generated diagnosis protocol online. (Note: Do not use Guided Function. The diagnosis log will not be uploaded to GFF paperless)		Retrieve the paper with the torque wrench key code from the base carrier bar box. Insert the paper with the key code into the owner's literature wallet. Record torque wrench key code in the VDF to ensure it's documented in the event the paper with the code is misplaced					
		verify vehicle start all doors lock/unlo	ality, including seat memory (if equipped); s and runs with the start/stop button; verify ck with remote and advanced key, including ssors with the advanced key (if equipped)				
Transport Mode Deactivation, DTC check, set	service reminder						
*It is advised to start ODIS with the engine running to enable all 5F Test Plans in GFF and also to ensure SVM sees all control units during the SVM check vehicle configuration		Interior					
			all switches: Locks, windows, seat adjust- (if equipped) and child safety features				
☐ Deactivate vehicle transport mode (via Spec Service work → 19-Transport mode activati	ng/deactivating)		mirror compass to proper zone and check tion/lighting (if equipped)				
Set service reminder (via Special functions - 17-PDI-resetting SRI at PDI, counter reset,		☐ Verify operation of	all interior lights				
For MMI3G+ vehicles, set adaptation channel (via Special functions -> Service work -> : 5F-Activating/deactivating storage of music). Also referred to as CD Ripping. Perform hard reset of the MMI to complete the activation		☐ Mirrors: Inspect fo memory (if equipp	lding, adjustments, RH tilt in reverse, and ed)				
			of lighter, aux. outlet under armrest, and go area (if equipped)				
Perform any campaign update requiring SVM at this time		☐ Verify operation of	all front and rear seat belts and latches				
(follow instructions listed in campaign doc	cumentation)	Check horn operati	on				
Under the Hood Fluid Check and Inspection		Check sunroof and deflector at edge)	sunshade operation (open/close/vent/				
☐ Check all fluid levels and top off if necessar	у	Passenger side airbag: Verify operation of Passenger Occupant Detection System					
— Check engine oil level using Special Tool T4	0178 on a flat and						

level surface

Interior (continued)	Audi connect (if equipped) (USA ONLY)	
Start-Stop-System info (if applicable): Verify the velum sticker is on the start/stop button. Remove the Start-Stop-System information card from the car kit and place it in the glove box with the owner's manuals.
