## SERVICE UPDATE

**SUBJECT:** Service Update for Customer Vehicles  
Goodwill for Repeat Tail Lamp Repair  
Expires May 31, 2015

**MODELS:** 2014 Chevrolet Impala  
U.S. Vehicles Only

The expiration date of this bulletin has been revised. Customers in Customer Satisfaction Program 14047 that are returning for a second tail lamp repair have also been added to this bulletin. Please discard all copies of bulletin 14046.

### PURPOSE

The purpose of this service update is provide the customer with a goodwill gift to offset customer inconvenience, restore confidence in GM, and maintain loyalty to GM. The vehicles involved in this service update have previously had a warranty repair for a tail lamp water leak. Since that repair, GM has developed a more robust repair. These customers are now being asked to bring their vehicle back in for this more robust repair under Customer Satisfaction Program 13426 or 14047. For their inconvenience in having to return for a second repair, dealers are to offer the customer a selection of one of the available goodwill tools listed in this bulletin. Because each customer has unique preferences, please offer all of the options found in this bulletin to the customer and allow them to select the one that best suits their situation.

Please note that not all vehicles in Customer Satisfaction Program 13426 or 14047 have had a previous water leak repair, and so they may not be included in this service update.

**The goodwill offer described in this bulletin should be presented to the involved customer when they pick up their vehicle after having Customer Satisfaction Program 13426 or 14047 performed on the vehicle.**

### VEHICLES INVOLVED

All involved vehicles are identified by VIN in the Global Warranty Management System – Investigate Vehicle History Application. Dealership technicians should always check this site to confirm vehicle involvement prior to beginning any required inspections and/or repairs. It is important to routinely use this tool to verify eligibility because not all similar vehicles may be involved regardless of description or option content.
