**To:** All Honda Service Managers/Advisors  
**From:** Technical Research & Support Group  
**RE:** Request for Visit: 2014 Civic TPMS Light On with DTC 151-11 Stored

This message is solely directed to Honda dealership personnel; please handle accordingly.  
Print this *iN* message and provide a copy to the Shop Foreman and all Service Advisors.

**Background**

American Honda (AHM) is investigating certain 2014 Civics with a complaint of the TPMS (Tire Pressure Monitor Sensor) light on with DTC 151-11 (Low Tire Pressure) stored. To fully understand the cause of this condition, AHM would like to inspect the vehicle prior to you attempting a repair of any kind.

**Qualifiers**

AHM is interested ONLY if the vehicle meets the following requirements:

1. VIN must start with 19X.
2. Only 4-door Civics are accepted, excluding Si, CNG & Hybrid.
3. TPMS light must be on with DTC 151-11 stored.
4. Vehicle must have the correct tire pressures (30 psi for 15" tires & 32 psi for 16" & 17" tires)
5. Vehicle must have at least 1 prior repair history for the same issue.

**Action Required**

If you have or know of such a vehicle, please call Technical Research & Support (TRS) Group at 800-880-1072. TRS will need to record certain vehicle information and provide you with further instructions.

Thank you.
