44530 2013-2014 F-Super Duty Equipped With 6.7L Diesel Engine - Diagnostic Trouble Code P054F

Some 2013-2014 F-Super Duty equipped with 6.7L Diesel engines may exhibit Malfunction Indicator Lamp (MIL) illuminated with Diagnostic Trouble Code (DTC) P054F stored in the Powertrain Control Module (PCM). This DTC may occur if vehicle is operating in cold ambient temperatures below 20F/-7C. If unable to determine root cause of DTC P054F after completing PCED Pin Point Test M Diagnostic Routines, do not replace Powertrain components (MAF sensor, AIS Filter, Fuel Injector Pressure Sensor). Clear the DTC and return vehicle to Customer. Note: This DTC will clear after the 4th drive cycle, if the monitor completes. Submit Global Concern Reporting (GCR) VIN Information in PTS, Under contact us WEB page section, click Report a Vehicle Concern. Monitor OASIS for future updates, Engineering is investigating via Quick Service Fix (QSF)
