Summary:

Some customers have reported that with the installation of the high windshield for PAC that in some certain driving conditions the windshield drops.

Type:

General

TST Detail:

The solution consists in the installation of 219800352 - High Windshield Refurbish Kit springs to increase the pre-load on the balls and slide rail.

You will notice the windshield adjustment is much stiffer. Show the customer how to properly adjust the height of the windshield using both hands and pulling/pushing evenly.

Instruction Sheet P/N:		219800353							
Revision no:									
Revision date:									
Item covered:		High Windshield Refurbish Kit (Kit P/N : 219800352)							

PRIOR TO INSTALLATION, PLEASE VERIFY IF A REVISED VERSION OF THIS INSTRUCTION SHEET IS AVAILABLE ON KNOWLEDGE CENTER.

The following symbols may be used in this document:

WARNING

Indicates a hazardous situation which, if not avoided, could result in death or serious injury.

CAUTION: Indicates an instruction which, if not followed, could severely damage vehicle components or other property.

NOTICE Indicates an instruction which, if not followed, could severely damage vehicle components or other property.

WARNING

- This kit is designed for specific applicable models only (authorized BRP dealers will confirm model(s)). It is not recommended for units other than the one (those) for which it was sold.
- This instruction sheet MUST be given to the purchaser.
- Should removal of a locking device (e.g. lock tabs, self-locking fasteners, etc.) be required when undergoing disassembly/assembly, always replace with a new one.
- Torque wrench tightening specifications must strictly be adhered to.

NOTE: The illustrations in this document show typical construction of the different assemblies and may not reproduce the full detail or exact shape of the parts; however, they represent parts that have the same or similar function.

Installation time is approximately 0.4 hour.
