## 2014 ROGUE; CONFIGURING THE AIR BAG DIAGNOSTIC SENSOR UNIT

This bulletin has been amended to state that there will not be a part number or any options listed when performing the configuration. Please discard the previous version.

**APPLIED VEHICLE:** 2014 Rogue (T32)

### SERVICE INFORMATION

If for any reason the Air Bag Diagnosis Sensor Unit is replaced it must be configured.

- If not configured, DTC **B1427-55** may be set.

When configuring the AIR BAG control unit for the above Applied Vehicle, using CONSULT III plus (CIII plus) and "Manual Configuration", there will not be a "DATA PART NO" listed (or option) to select.

- Select **Next**, **OK**, and then **End** when prompted to complete the configuration process.

Refer to the Electronic Service Manual (ESM) section, **SRC – SRS Airbag Control System**, for configuration procedure.

Nissan Bulletins are intended for use by qualified technicians, not 'do-it-yourselfers'. Qualified technicians are properly trained individuals who have the equipment, tools, safety instruction, and know-how to do a job properly and safely. NOTE: If you believe that a described condition may apply to a particular vehicle, DO NOT assume that it does. See your Nissan dealer to determine if this applies to your vehicle.
