44700 2014 Transit Connect Vans With 2nd Row Glass, Tinted Glass Versus Privacy Glass

Some 2014 Transit Connect XLT Vans may have been built with tinted 2nd row and/or tinted rear glass, instead of dark/privacy glass. It is also possible that the HVBoM does not list the dark/privacy glass part number. Dark/privacy glass is standard on all XLT Vans. Compare the tinted glass part number on the vehicle to the dark/privacy glass part number in the part catalog. If the glass on the vehicle is not dark/privacy glass, contact the misbuild hotline to make a claim.
