Group: 28

SUBJECT: MY2014 to Present, Model W/X166
Transfer Case Breather Design Change

The 166 single speed transfer case breather vent is no longer installed on the top of the transfer case. An open vent has been added to the design near the input of the transfer case (Figure 1). The original vent location is now blocked off (Figure 2). Transfer cases should not be replaced for missing vents in this case.
