TECHNICAL SERVICE BULLETIN

SUBJECT: UVO eServices (AVN 4.0) – TECHNOLOGY HIGHLIGHTS

In an effort to better educate and familiarize customers with some of the features in their recently purchased 2015MY Optima (QF) vehicle; Kia Motors America would like all dealership service personnel to be familiar with the technology highlights outlined in this TSB to help maximize owner satisfaction with their new Kia vehicle.

USB Connectivity

Once UVO eServices* is activated, you must be connected to the vehicle via USB cable (to prevent driver distraction, the app will display a connected screen until the USB cable is disconnected) and logged into the app to operate UVO eServices* features, such as:

My Car Zone

To check My Car Zone alert history

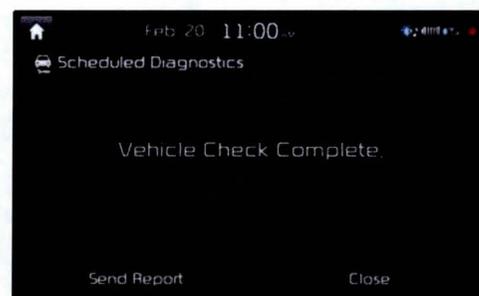

- Press the **UVO** button, then, select **My Car Zone**.
- To send data from the Menu tab in My Car Zone, press the **Send Data** button on the touch screen and the data transfer will begin.

Vehicle Diagnostics*

To conduct Vehicle Diagnostics:

- Press the **UVO** button, then, select **Vehicle Diagnostics**.
- The Vehicle Diagnostics process will begin automatically.

- Press **Send Report** to transfer report to MyUVO.com.

*Vehicle Diagnostics do not take the place of regularly scheduled maintenance. Feature checks powertrain, chassis, and airbag systems only. For factory recommended maintenance schedule, see the Maintenance Feature of UVO eServices or the Owner's Manual. In Addition, see the last page of this document for Safety and Legal information.

File Under: General

Circulate To: General Manager Service Manager Parts Manager
 Service Advisor(s) Technician(s) Body Shop Manager Fleet Repair

Parking Minder*

To send a parking location to your smartphone:

- Park the vehicle.
- Press the **UVO** button, then, select the **Parking Minder** icon to send the vehicle's location to your smartphone.

Points of interest (My POIs)

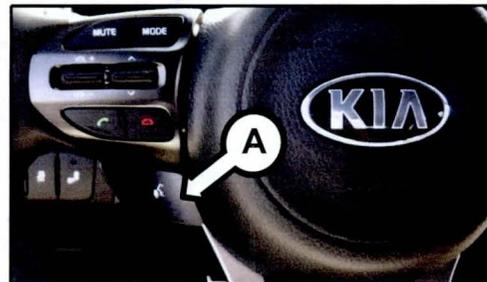

To send Points of Interest to your Navigation System:

- Press the **UVO** button, then, select **My POIs** icon.
- Select the **Update** button on the touchscreen.
- My POIs will be updated with POIs from your MyUVO.com account.

Siri® Eyes Free

If you have an iPhone® or other Apple® iOS device equipped with Siri Eyes Free, you can access Siri through this audio system. See the Apple website for Siri Eyes Free support on your iOS device.

- Ensure that your iOS device is Bluetooth® paired and connected to the audio system.
- Press and hold the **Talk** button (A) until you hear a tone.

- Siri will appear on the touchscreen.
- Simply use Siri as you normally would.

Connecting to a WiFi Network

This Kia UVO eServices with Premium Navigation (AVN4.0) audio control unit features WiFi connectivity. You must be connected to a WiFi network in order to operate the Download Apps Center and downloaded apps and Local Search functions.

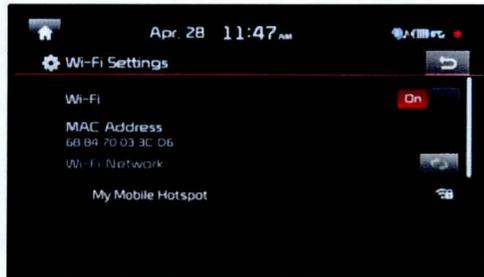

To setup WiFi connectivity your vehicle will need to be parked and within range of a wireless network — this can include a smartphone that is configured as a wireless hotspot or other personal hot spot device.

*The Parking Minder feature on the smartphone app is relying on the GPS within the user's phone to retrieve a parked vehicle from the current location. Normal cellular data rates will apply. See the last page of this document for Safety and Legal Information.

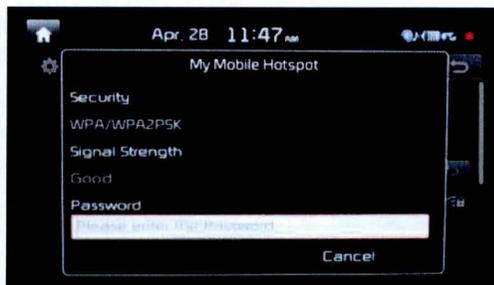

SUBJECT: UVO eServices (AVN 4.0) – TECHNOLOGY HIGHLIGHTS

Connecting to a WiFi Network (Cont'd)

1. Press the **SETUP** button on the audio control unit.
2. Select **WiFi** icon from the touchscreen.

3. A list of available networks will be displayed on the screen. If a password is required, enter the password and press the **Connect** button.

4. After a few moments, the screen will indicate that you are connected.

5. You are now able to access Local Search powered by Google™ and the Download Apps Center.

Local Search Powered by Google™

There are two ways to access Google local Search. **Note: A Wifi connection is required.**

1. Using the Navigation Destination Menu

- Press the **NAVI** button
- Select **Local Search** on the touchscreen

- Enter your search term in the touchscreen buttonpad. Example: "Kia Motors America". A list of relevant locations will appear. Select your preferred location.

- Your destination will appear, along with the relevant destination information (e.g. phone number, business hours).

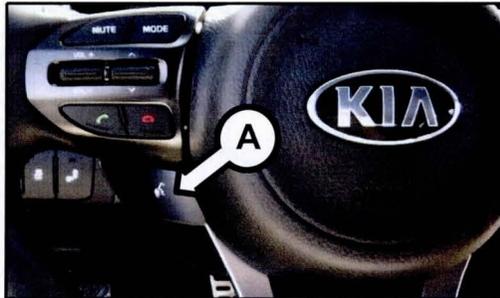

- Set the location as a new navigation Destination by pressing "Set as Destination".

SUBJECT: UVO eServices (AVN 4.0) – TECHNOLOGY HIGHLIGHTS

2. Using Voice Recognition (VR)

- Quick press of the **Talk** button (A)
- Prepare to speak. After the beep prompt say: "Local Search"

- Say: [the name of your search item]. A list of relevant locations will appear on screen.

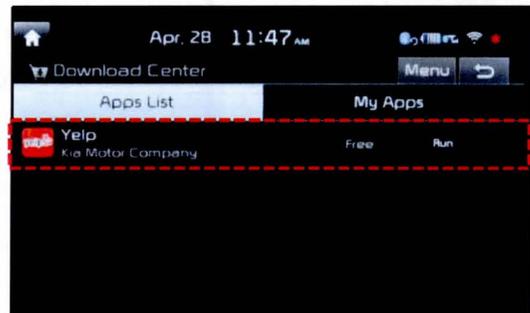

- Select your preferred location.

Downloading Apps (Kia Download Center)

1. Connect to a WiFi network
2. Press the **INFO** button
3. Select **Apps** icon from the touchscreen menu
4. Select the **Download Center** icon
5. Select the **Apps List** tab: a list of available apps will display
6. Select an app to download. Note: Free apps have a **Download** button; paid apps have a **Purchase** button.
7. The example below shows the Yelp® app being downloaded.
8. Select the Yelp app from the list.

SUBJECT: UVO eServices (AVN 4.0) – TECHNOLOGY HIGHLIGHTS

Downloading Apps (Cont'd)

1. To download Yelp, simply press **Download** button.
2. Once the download is complete, the app will show up in the **My Apps** tab.

Launching an App

Simply select its icon from the **My Apps** tab.

Apps can also be accessed by:

- Pressing the **INFO** button
- Selecting Apps from the homescreen

Note: You will be notified if/when updates for your downloaded apps will be available in your Apps list. You may choose Update All or update them individually.

Deleting an App

1. Press the **Setup** button.
2. Select **Downloaded Apps** icon from the Touchscreen.
3. Select the app you wish to delete and press the **Delete** button.

Note: If you would like to download an app again after deletion, you may always Re-download it.

For more information on audio system and navigation functions, check your Multimedia System User's Manual, the Navigation Quick Reference Guide or the Interactive Guide on the vehicle's head unit.
