Toyota Announces Recall of Certain Model Year 2015 Sienna Minivans for 2nd Row Overhead Grips

Toyota plans to conduct a voluntary safety recall of approximately 25,500 Model Year 2015 Sienna Minivans. Approximately 30,000 Sienna vehicles are involved worldwide, including approximately 2,000 in Canada; 1,600 in Mexico; 130 in Korea and 18 vehicles in Germany.

The involved vehicles are equipped with left and right side second row overhead assist grips mounted to the roof rails. In the event of a collision that results in deployment of a curtain shield airbag (CSA), an assist grip could detach from the mounting bracket under some conditions. If an assist grip completely detaches, it may contact an occupant, increasing the risk of injury in a crash.

Toyota is not aware of any injuries or fatalities caused by this condition.

Owners of the vehicles involved will receive a notification by first class mail. Toyota dealers will modify the headliner under the second row overhead assist grips at no charge to the customer.

Detailed information is available at www.toyota.com/recall and by calling Toyota Customer Service at 1-800-331-4331.
