**2000-2014** All Vehicles except Routan – ECM Fault P1250  
“Fuel Level Too Low” Will Not Clear

**October 10, 2014: Update to model year.**

To clear static ECM fault P1250 “Fuel Level Too Low”, add fuel to vehicle and complete a road test of at least 10 miles. Simply adding fuel without completing a road test may not allow fault to clear.
