Entertainment Center MDI Cables – 2015 (A7) Golf/GTI

November 14, 2014: Update to Information.

For the A7 Golf/GTI the MDI cables are not the same as the ones used in the A6 Platform. Below you can see it is easy to tell the difference. **If the vehicle is found to have a white collar cable, the correct cable will need to be used. Refer to ETKA for the correct cable needed depending on the device being used.**

Note: These cables are no longer provided from the factory with MY15 vehicles produced after 6/31/2014.
