PRELIMINARY INFORMATION

Subject: Trailer Brake Controller Harness for Adding an Aftermarket Trailer Brake Controller

Models: 2014 Chevrolet Silverado 1500
2015 Chevrolet Suburban, Tahoe
2014 GMC Sierra 1500
2015 GMC Yukon, Yukon XL
Equipped with RPO Z82 but without RPO JL1

The information in this PI replaces PIT5228 and PI1105. Please discard PIT5228 and PI1105.

Chevrolet and GMC models listed below equipped with trailering package RPO Z82 (but without RPO JL1) were shipped to dealers without an electric trailer brake controller harness used for the installation of an aftermarket trailer brake controller.

Vehicle Breakpoint Information

Model Year	Model	Plant	Plant Code	Date
2014	Chevrolet Silverado 1500 GMC Sierra 1500	Fort Wayne	Z	Built Prior to October 10, 2013
2014	Chevrolet Silverado 1500 GMC Sierra 1500	Silao	G	Built Prior to November 8, 2013
2015	Chevrolet Suburban, Tahoe GMC Yukon, Yukon XL	Arlington	R	Built Prior to February 14, 2014

Availability of Trailer Brake Controller Harness

- Trailer Brake Controller harnesses are being shipped to dealers from the Warranty Parts Center (WPC) for vehicles in dealer inventory. This shipment began March 1, 2014 via UPS 3-Day Shipping. Please add this harness to the vehicle when parts are received. Additional information and a complete listing of affected VINs can be found in dealer message G_0000186218, dated March 7, 2014. Dealers in Canada should refer to message number G_0000186592.

3755495

- If a vehicle assigned to your dealership has been sold or dealer traded, please make arrangements to provide the customer or the selling dealer with the harness when received.
- For customers of previously purchased vehicles, GM will mail the harness directly to customers of record.

Information on Installation of an Aftermarket (Non-GM) Trailer Brake Controller

As stated above: the shipped harness is for use in connecting an aftermarket trailer brake controller. An instruction sheet for installation is included in the package with the harness. Additionally, a label is applied to the harness that calls out the wire colors and each wire's function.

3610482

For reference the harness is to be connected from the MID-BEC to an aftermarket trailer brake controller. The MID-BEC is located under the I/P to the left of the steering column. The harness connection point (1) is illustrated above. Complete instructions for customer installation of the harness are included in the harness packaging.

This information does not apply to trucks equipped with an integrated trailer brake control module (JL1).

If the customer wishes to have an aftermarket brake controller installed in their vehicle, it would be considered as a Customer Pay option.

Parts Information

If additional or a replacement harness is needed please order:
