Bulletin No.: PI1165

Date: February, 2014

PRELIMINARY INFORMATION

Subject: Information on Headlamp Tool Supplied in Tool Kit

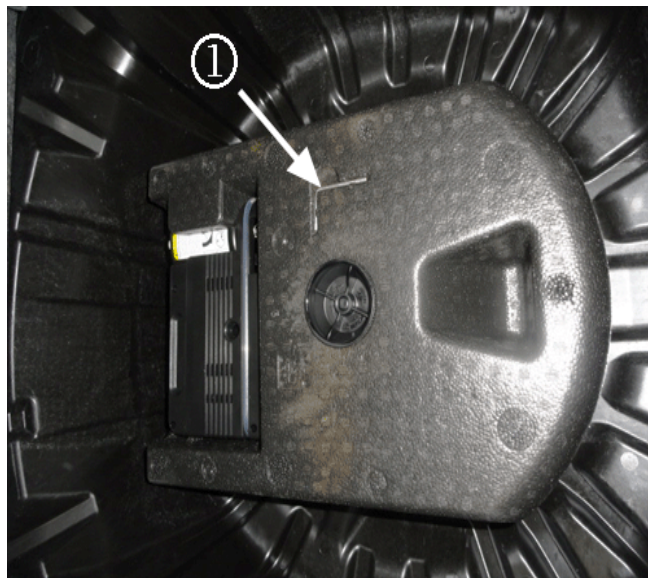

Models: 2014 Chevrolet SS
Condition/Concern

3702973

Some customers may comment that the vehicle comes with a supplied tool but they are unaware what the tool is used for. This tool is stored with the emergency tire sealant and air compressor kit, or with the jack and wheel wrench package. The tool locations are detailed below.

Tire Inflator Kit

3702976

The tool (1) is stored in the foam container in the trunk, under the floor carpet.

Spare wheel and Jack

3702978

Open the spare tire lid and remove the spare tire.

3702980

Remove the plastic jack retainer (1).

3702983

The tool (1) is stored in the underside of the jack retainer.

Recommendation/Instructions

The vehicle has a torx tool for use when replacing the headlamp or front turn signal bulbs. The tool is used to remove the forward screws in the front wheelhouse liner in order to gain access to the rear of the front lamps.
