## PROGRAM AND PRODUCT UPDATES

**Contact Information:** Please review your contact information (i.e., email address, telephone number) and update accordingly.

## TIP of the WEEK: ES2 Code

### ES2 code

The ES2 code (supplementary code 2) is **mandatory** when ordering parts that depend on color or the equipment installed in the vehicle. The ES2 code can be seen in the color footnote.

 For smart vehicles, the ES2 code is contained in the Q object number (for SMART CITY-COUPÉ, CONVERTIBLE, ROADSTER).

The ES2 codes can be transferred from the parts list to the shopping list using one of the following options:

- The ES2 code is displayed directly in the parts list and transferred automatically to the shopping list.
- The ES2 code is determined from the color footnote and transferred to the shopping list by clicking on the link in the footnote.
- The ES2 code is determined from the color footnote and entered manually in the shopping list.

**Example: Displaying the ES2 code directly in the "Part number" column of the parts list.**
