Title	Awareness of Clearing warning messages on Touch screen
Category	Electrical
Last modified	15-Oct-2014 00:00:00
Symptom	206000 Warning Indicators
Attachments	ssm warning (1).pdf
Content	<p><u>Issue:</u> Customers have reported that a warning triangle appears on the touch screen and if touched a symbol, like a speedo / rev counter appears. (see attached files for clarification of which warning symbol is meant)</p> <p><u>Cause:</u> This is intentional and is to inform the driver that there is a warning message for their attention and the message is displayed in the cluster.</p> <p><u>Action:</u> Educate customers on the purpose of the message. That it is simply a notification of a warning.</p>
