

**RIDE THE DUCKS INTERNATIONAL**  
Fleet Operations & Safety  
2320 West Highway 76  
Branson MO 65616

**Bulletin No.** SB-00-11-14  
**Release Date:** 1/30/14  
**Effective Date:** 3/3/14  
**Supersedes:** N/A  
**Completion Date:** **March 3,2014**  
**Applicable to:** All Ducks  
**Total Pages:** 1

## **SERVICE BULLETIN**

**REASON FOR RELEASE:** To avoid damage to forward portable fire extinguishers due to chaffing. This is in accordance with RTD/USCG approval letter, which granted RTD the allowance to manufacture and use an alternative fire extinguisher holder.

**URGENCY:** Complete by **March 3,2014**

**Directions:** Fire extinguishers that are found undersized for the holder (capable of lateral movement within the holder) are required to be secured from the risk associated with chaffing. This can easily be achieved by installing adhesive foam rubber within the holder, between the fire extinguisher and holder itself.
