DESCRIPTION/PRICING

Mazda North American Operations received many requests from our dealers asking us to approve additional on-car brake lathes as an option for MNAO authorized equipment.

Due to your feedback and after evaluating a few on-car brake lathes, we are pleased to announce that we have added the Pro Cut On-Car Brake Lathe to MNAO authorized equipment program.

The Accu-turn is still an approved brake lathe but it is no longer available for purchase from our vendor.

Important reminder – Rotors must be machined using a Mazda approved on-car brake lathe or warranty claims are subject to denial or debit.

Tool Number	Description	Pricing
50-PFM92.5	Pro-Cut On-Car Brake Lathe	Call for current pricing
