<b>Title</b>	14MY L405 Range Rover Long Wheel Base - Wheel Size Prohibition
<b>Category</b>	Chassis
<b>Last modified</b>	01-Dec-2014 00:00:00
<b>Symptom</b>	306000 Tyres/Wheels
<b>Attachments</b>	

**Content****Issue:**

14MY L405 Range Rover Long Wheel Base (LWB) must not be fitted with wheels larger than 21" diameter.

**Cause:**

If wheels larger in size than the original equipment 21" are fitted to a L405 LWB the handling and vehicle dynamics are affected adversely.

**Action:**

Under no circumstances may a wheel size larger than 21" be fitted to 2014 Range Rover Long Wheel Base models. Engineering has not approved the use of wheels/tires on the Long Wheel Base variant larger than 21". As such, the practice of swapping larger diameter wheels from other vehicles in retailer inventory, the fitting of the Land Rover Accessory 22" wheels or larger sized after-market wheels are prohibited for this model. JLR would appreciate it if service managers would kindly post this SSM where the Centre Manager and all Sales staff can see it. **15MY LWB L405 from VIN LG197042 can be fitted with 22" wheels.**
