**DEALERSHIP INSTRUCTIONS:** Please reference Service Bulletin 14-045 and 14-046 and make sure to return the airbag inflators within 48 hours by following the shipping instructions included with the new inflators.

**WHY DOES MY 2005  
HONDA CIVIC NEED REPAIR?**

In some vehicles, both the driver's front airbag inflator and front passenger's airbag inflator could produce excessive internal pressure upon deployment.

If an affected airbag deploys, the increased internal pressure may cause the inflator to rupture.

In the event of an inflator rupture, metal fragments could pass through the airbag cushion material possibly causing injury or fatality to vehicle occupants.

**Honda will repair your vehicle free of charge (parts and labor).**

To do this, your dealer will replace the driver's front airbag inflator and front passenger's airbag inflator.

The complete replacement process may take approximately 72 minutes; however, your vehicle will need to be at the dealer for a longer period of time. We recommend that you plan to leave your vehicle for half a day to allow the dealer flexibility in scheduling.
