

	GROUP Body	MODEL 2016MY Optima (JFa)
	NUMBER PS440	DATE November 2015
 		
SUBJECT: OPTIMA (JFA) – FRONT LICENSE PLATE INSTALLATION		

This article provides information regarding front license plate installation on 2016MY Optima (JFa). The previous generation Optima (QF/TF) utilized a front license plate holder for front license plate installation. The 2016MY Optima (JFa) does NOT include a license plate holder. Instead, the license plate should be mounted directly to the front bumper fascia, utilizing the provided alignment dimples (see below). **Note: Special care should be taken to avoid damage to the painted surface.**
