### Service Letter Reference: JD 15-020

**Date:** January 20, 2015

**To:** Jerr-Dan Distributors

**Models Affected:** Units equipped with Code 3 Model 2758 Lightbars,  
Manufactured Between January 1, 2012 and December 31, 2013

**Subject:** Lightbar Molex Connector Power Wire Pin Exhibiting Vibration Related  
Issues

**Issue:**

It has been determined that Model 2758 lightbars manufactured by Code 3 Inc. (Code 3) may unexpectedly cease operation. Code 3 has determined that during high vibration and shock applications, increased mechanical stresses have lead to the internal connector overheating during operation. This could lead to a loss of function in the lightbar.

**Resolution:**

Code 3 has added two P-clamps to the model 2758 design to production units to stabilize the internal connector on the control board to eliminate the mechanical stresses. It is recommended that the attached Code 3 Technical Service Bulletin be completed on affected units to ensure proper function of the lightbar.

**Process:**

1. At the release of this Service Letter, you will be receiving the following components (free of charge) from Code 3. These will be the necessary quantities of p-clamp kits for the repair of each affected units in your area.  
Each kit will include:
  - Qty. 1 – 5/16" Cable Clamp
  - Qty. 1 – 3/8" Cable Clamp
  - Qty. 2 – SMS, HX HD Phil Washer
  - Qty. 1 – Instruction Sheet

2. Prior to making repairs, contact Jerr-Dan Customer Support at (800) 926-9666, for warranty authorization. At this time you will need to supply the lightbar serial number and reference JD 15-020.
3. Perform the Code 3 Technical Bulletin (included in the kit) for circuit board inspection and installation of the P-clamps.

**Note:** If discoloration (see step #2 of the Code 3 Technical Bulletin) of the header or connector is found during repair and inspection, please contact the Code 3 Technical Service Department at (314) 996-2800, immediately for the next necessary actions as a new control board and wire harness may be necessary. When contacting Code 3, please be prepared to provide the following information:

1. Truck bed serial number
2. Lightbar serial number
3. Failure date
4. Repair date

### **Warranty:**

The warranty coverage for this bulletin will expire three (3) months after the date of distribution. Please contact Jerr-Dan Customer Support for authorization to perform necessary repairs. Please have your lightbar serial number(s) available and reference JD 15-020 when submitting warranty claims.

#### **For P-Clamp Repair:**

Jerr-Dan recommends the installation of this service kit at the next service interval. Jerr-Dan will reimburse your account for ten (10) minutes of labor for each unit completed. There will be no cost associated with the p-clamp kits. No travel will be paid in accordance with this Service Letter.

#### **For Control Board Repair:**

If Code 3 determines that units require the replacement of the control board, Jerr-Dan will reimburse your account for forty-five (45) minutes of labor for each unit replaced. There will be no cost associated with control board kits. No travel will be paid in accordance with this Service Letter.

If it is determined that the control board does not have evidence of warranty failure a charge may be applied by Code 3. Failed control board's must be returned to Code 3 for analysis to:

Code 3 Inc.  
10986 N. Warson Road  
St. Louis, MO 63114-2029
