

An Oshkosh Corporation Company

Service Letter
Reference: JD 15-274A

Date: October 1, 2015

To: Jerr-Dan Distributors and Service Providers

Models Affected: HDR1000 with JFB Body (per attached Serial Number List)

Subject: Mid Body Brace Installation

Issue:

Jerr-Dan engineering has designed a mid body bracing enhancement to be incorporated into the early production JFB Bodies, used on the HDR 1000 Wreckers shown on the attached list. With the addition of the new bracing, the durability and structural integrity of the bodies can be increased.

Resolution:

Jerr-Dan has developed a service kit, P/N1001197507, to be installed on wreckers with the JFB bodies, with serial numbers shown on the attached list. The kit will contain all the necessary hardware to provide bracing to the mid section of the wrecker body. It is recommended that the bracing be installed on all units, shown on the attached list. Each service kit will include enough parts to complete one wrecker body assembly.

Warranty:

Jerr-Dan will pay two (2) hours labor to complete the upgrade on each unit. The warranty covered on this bulletin will expire six (6) months after the date of distribution. Please reference JD 15-274A on your warranty claim.

Should you have any questions or concerns, please contact Jerr-Dan Customer Support.
