Service Letter
Reference: JD 15-274B

Date: October 1, 2015

To: Jerr-Dan Distributors and Service Providers

Models Affected: HDR1000 (per attached Serial Number List)

Subject: Toolbox Dampening Strap Replacement

Issue:

Jerr-Dan has implemented a design change to the Dampening Straps, used on the chassis mounted tunnel toolbox drawers, which are installed on Jerr-Dan JFB Bodies.

Resolution:

Jerr-Dan has worked with the vendor to establish a design enhancement to the Dampening Straps and it is recommended that the straps on all units, shown on the attached serial number list, be replaced by ordering kit P/N 1001197508 (replacement instructions are included in the kit). Each kit will include enough parts to upgrade one complete toolbox assembly.

Warranty:

Jerr-Dan will pay for one (1) hour of labor to complete the upgrade on each unit. The warranty covered on this bulletin will expire six (6) months after the date of distribution. Please reference JD 15-274B on your warranty claim.

Should you have any questions or concerns, please contact Jerr-Dan Customer Support.
