

	GROUP <b>General</b>	MODEL <b>2016MY Sorento (UMa)</b>
	NUMBER <b>PS397</b>	DATE <b>April 2015</b>
 		
<b>SUBJECT:</b> 2016MY SORENTO (UMa) - ICY ROAD WARNING INDICATOR LOGIC		

This article describes the operation logic for the Icy Road Warning Indicator in the instrument cluster. The indicator will illuminate (A) when the ambient temperature drops below 40°F (4°C) to warn of the possibility of an icy road. Prior to illuminating, the warning light will blink 10 times and a warning chime will sound 3 times.
