Date: January, 2015

Dear Mitsubishi Owner,

Mitsubishi Motors North America Inc. has determined that there is potential for the All Wheel Control (AWC) hydraulic unit on your vehicle to corrode from prolonged exposure to anti-freezing agents used in cold weather areas to clear ice and snow from roadways. This corrosion may result in AWC hydraulic unit failure and AWC warning lamp illumination. Although use of the Active Center Differential (ACD) and/or Active Yaw Control (AYC) feature may be inhibited, the vehicle can still be safely operated.

To ensure your continued satisfaction with your vehicle, Mitsubishi is extending the warranty for the AWC hydraulic unit on your vehicle from failure due to corrosion, from the current 3 years / 36,000 miles to **10 years / 100,000 miles**, whichever comes first.

If you have already encountered a problem with the AWC hydraulic unit and had it repaired/replaced on your vehicle as a result of this specific condition and have paid for the repair, you may send your original repair order or invoice **and** original receipt/proof of payment to the following address for reimbursement consideration:

Mitsubishi Customer Relations Department, P.O. Box 6400, Cypress, CA 90630-0064

Please keep a copy of this notification with your vehicle's warranty book for future reference. If you have any questions, please contact us:

Mitsubishi Customer Relations Department • P.O. Box 6400 Cypress, CA 90630-0064  
Phone 1-888-648-7820 Hours: Monday – Friday 7 a.m. – 4 p.m. Pacific Time

Sincerely,

Mitsubishi Motors North America, Inc.
