Subject 2014 RLX Hybrid ACC Software Update

Message **PRIORITY/ACTION REQUIRED**

To: All Acura Service Managers
From: Parts and Service
Re: 2014 RLX Hybrid ACC Software Update

Print this iN message and give a copy to the Shop Foreman, all Service Consultants, all Technicians, and appropriate personnel.

Dear Service Manager,

Please do not perform any software updates on 2014 RLX Hybrid units related to the Adaptive Cruise Control (ACC) unit until further notice. There is a bug in the software that causes the ACC unit to become unresponsive and require replacement. Once the bug has been fixed, another iN message will be published. Please note this message only applies to RLX Hybrid units. Non-hybrid units are ok.

Thank you for your cooperation.
