

NABI Service Bulletin No: SB-17-15-01

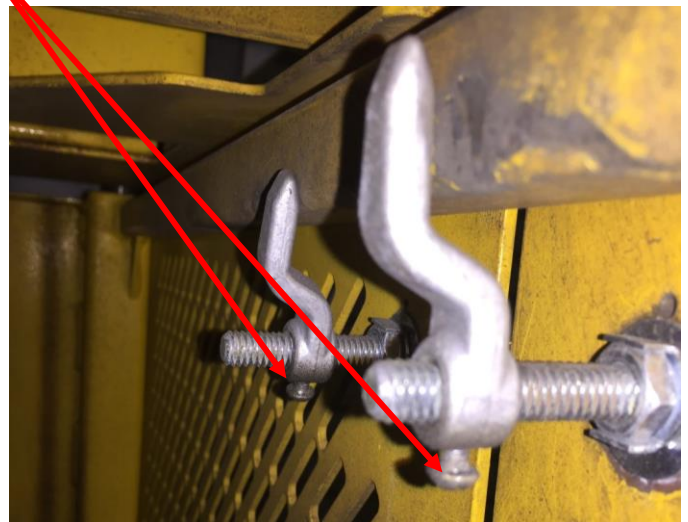

To: Bus Operations Managers and Supervisors
Bus Maintenance Managers and Supervisors
Bus Maintenance Personnel

Subject: Belt-guard Latch Maintenance

Date: March 06, 2015

The purpose of this bulletin is to emphasize the maintenance requirements of the belt-guard latches.

- Regular inspection of the latches is required to ensure proper operation. Inspect latches every 6,000 miles or monthly and adjust as required.
- If adjustment was done on the latches it is recommended that Loctite 242 medium strength thread-locker is applied to the set screws as photo shown below.
