

Service Bulletin

PRELIMINARY INFORMATION

Subject: Auto Door Lock/Unlock Feature Is Inoperative and/or Power Locks Cycle

Models: 2013-2015 Chevrolet Malibu

This PI was superseded to update Models. Please discard PIC5675.

The following diagnosis might be helpful if the vehicle exhibits the symptom(s) described in this PI.

Condition/Concern

A customer or technician may comment that the Auto Door Lock/Unlock Feature Is Inoperative and/or Power Locks Cycle. DTC's B3125, B3130 and B3135 symptom code 02 could be set.

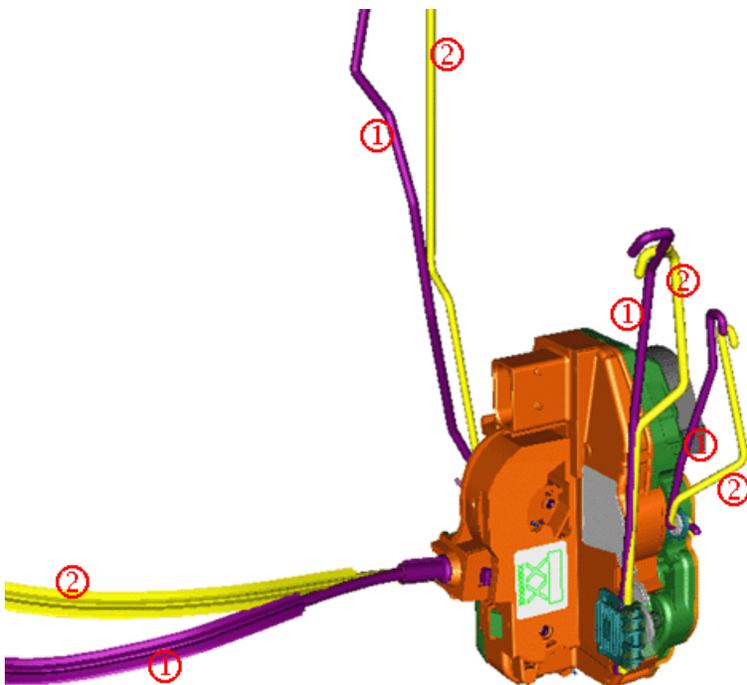

The 2012 to present Buick LaCrosse and 2013 to present Chevrolet Malibu share the same driver's door latch part number but the linkages that connect the latch to the door key lock cylinder, lock button and the external door handle are different for each vehicle. If the vehicles happen to be built with the incorrect linkage or linkages this concern may be present.

Recommendation/Instructions

Please remove the door latch assembly and check the rod. See the photos below to determine linkage configuration and replace the door lock cylinder to latch rod as required. Reference the Electronic Parts Catalog (EPC) to determine the correct rod to order / install.

Lacrosse Linkages purple (1)

Malibu Linkages yellow (2)

Warranty Information

For vehicles repaired under warranty use:

Labor Operation	Description	Labor Time
2060520	Front Side Door Lock Replacement	0.6 hr

Please follow this diagnostic or repair process thoroughly and complete each step. If the condition exhibited is resolved without completing every step, the remaining steps do not need to be performed.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
