Subject: APX™ Software 04.01.00 & Release Notes

Beginning in April 2015 APX software version 04.01.00 was introduced in all production APX controlled Trailer & Rail units. As of the release of this bulletin, 04.01.00 is also available on TransCentral™ for upgrading units in the field.

NOTE: APX software version 04.01.00 version is approved for use in all APX controlled units.

IMPORTANT SOFTWARE INSTALLATION INFORMATION:

ONCE ANY 04.xx.xx VERSION IS INSTALLED INTO AN APX CONTROL SYSTEM, IT WILL NO LONGER BE POSSIBLE TO LOAD ANY VERSIONS OF 00.xx.xx, 01.xx.xxx, 02.xx.xx or 03.xx.xx SOFTWARE INTO THAT CONTROL SYSTEM.

04.01.00 software can be installed using a CARRIER USB flash drive. 04.01.00 software is available at no cost by visiting the Carrier Transicold TransCentral™ website. This software can be loaded directly to the CARRIER USB flash drive or via the TRU-Tech program.

NOTE: Whenever loading software into an APX Control System, it is always wise to verify that the new version was actually installed by going to Advance User Mode and checking the Data List/System Information and reading the installed software version.

New functionality and information for ALL models can be found in the release notes attached to this bulletin or on TransCentral under the same tab as the software release.
