

## **Tech Tips**

### TT 64-15-01

Date: February 27, 2015

#### 2012-2015 Passat – Rattle when Closing Front Door

For issues of a rattle noise when closing the front door(s), inspect the window regulator cables to ensure the securing clip and the cable c-clip are properly attached. If c-clip is missing it may have fallen inside the door. If c-clip can't be found, or will not stay attached to the cables, crisscross 2 zip-ties as shown in figure 3 to secure the cables. Also inspect that the door wiring harness is properly secured with the 6 retaining clips.
