Condition

92 15 04 December 16, 2015 2042810

Rain Sensor is not Functioning

Normal wiper operation not affected.

Before beginning this procedure, validate that the rain sensor is not operating by switching the wipers to the intermediate position with the ignition ON and spraying the windshield with water in the area of the rain sensor. If rain sensor operates normally, this technical bulletin does not apply.

Technical Background

Rain sensor may not have been activated at the factory.

Production Solution

Recode body control module beginning AJ0GM273149.

© 2015 Volkswagen Group of America, Inc.

Service

Procedure:

Follow guided function to recode body control module.

Figure 1

• Right click body control module and select guided functions. (Figure 1)
