Condition

PDI - Front License Plate Bracket - Installation Instructions

66 15 05 April 10, 2015 **2040233** Supersedes Technical Bulletin V661504 dated April 1, 2015 to include special claiming code and VIN range.

This Bulletin may only be applied as "one time only" for vehicles within 12 months of the original vehicle in-service date as stated in the Warranty Policy. (See section 1.3 General Guidelines/ Start of warranty period).

Technical Background

Vehicles not delivered with a **front** license plate bracket.

For states that require a front license plate, please use this document as a reference.

Production Solution

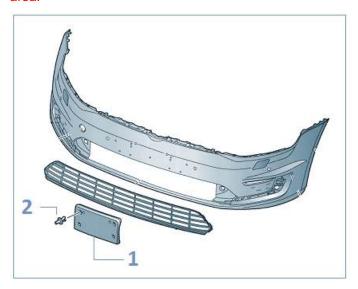

No production change required.

Service

Before drilling mounting holes into the bumper cover, make sure that there are no obstacles behind the drilling

Front license plate holder, installing

- Center the license plate bracket -1- on the front bumper cover.
- Mark the centers of the 4 mounting holes on the bumper cover.
- Using an 8mm drill bit, drill 4 holes at the locations marked.
- Align the holes of the bracket with the drilled holes on the bumper cover.
- Fasten the bracket with 4 (push pin style) clips -2-.
