Date: January 7, 2011

2011> Touareg, CC, EOS, Golf, GTI, Jetta, Jetta Sportwagen,
2010> Routan– Bluetooth Compatibility

May 8, 2015: Update to Information.

A Bluetooth compatibility list for 2011 MY vehicles can be found on <http://knowyourvw.com/bluetooth/> Be sure the correct model is selected when entering the site as it will save the information from the last vehicle entered. Look for the Technology tab and select Bluetooth. Observe the top right of the screen, there you will find the selection “Is your phone compatible?” There will be a drop down list to select the carrier and type of phone for all models except 2010 Routan (which will be a PDF format list).
