Support

Subject: 2015 Volkswagen Golf SportWagen – Market Introduction

Temporary Warranty Process and Parts Return Program (US Dealers Only)

Supersedes Service Circular VSS -15 – 04 with updated date range

Effective: From repair date March 23th, 2015 to June 20th, 2015

Model: Volkswagen Golf SportWagen

Model Year: 2015

During the Market Introduction of the all-new Golf SportWagen, Volkswagen will collect all warranty repair information to ensure prompt analysis and resolution of any emerging concerns.

- After performing the preliminary diagnosis, you must create a Volkswagen Technical Assistance (VTA) ticket and call the Technical Helpline prior to performing any repairs.
 - A separate VTA case number is required for each line item of warranty repair. This excludes all Required Vehicle Updates (RVU) and Campaign Circulars. (Be sure both RO Number and RO Date are entered correctly in all VTA cases)
- All Volkswagen Technical Assistance cases will need to be "CLOSED" at the completion of the repair.
- Dealers will be notified after Volkswagen Technical Assistance case closure of part return requests.
- Only warranty claims with a closed Volkswagen Technical Assistance case number in the Comments field and verified return parts will be processed for reimbursement.

Program Highlights: Dealership technicians must create a VTA case for every warranty repair (excluding transportation claims) using ElsaWeb and select concern group

"2015 Golf SportWagen – All concerns"

- Call the Volkswagen Technician Helpline with your Volkswagen Technical Assistance access code: **1-800-678-2389.**
- Select the option: prompt 1 to enter the access code given from ElsaWeb.
- The technician must perform a preliminary diagnosis on each concern reported by the customer and obtain a Volkswagen Technical Assistance (VTA) access code <u>before contacting</u> the Volkswagen Technician Helpline.
 - Note: Attachments will be mandatory. To be able to generate an access code you must have an attachment. This includes pictures and/or complete GFF logs electronically to the VTA case (GFF Paperless is not acceptable due to delays in uploads). Instructions on how to attach items to the VTA case and why they are needed can be found in Service Net. (Technician References>Technicians Helpline>Job Aid)

- The technician must provide complete repair information in the VTA system prior to closing a VTA case.
- If a part is ordered, the technician must obtain a Parts Sales Document number and enter it into the area provided in the preparedness questionnaire.
- If any part(s) are replaced, please document the Part Numbers in the space (Parts Replaced) provided in the preparedness questionnaire.
- If a Vehicle leaves the Dealership with the Customer for any reason the VTA ticket should be closed with the latest information available. If vehicle is leaving due to parts being ordered, a new VTA ticket will be required when parts are replaced to verify repair path.
- See Service Information-Support document: VSS-08-12 "Technician Preparation when Calling the Volkswagen Dealer Technician Helpline".
- The Volkswagen Technician Helpline consultant will provide a Volkswagen Technical Assistance case number for each properly documented concern (repair) on the repair order brought up by the technician.
 - <u>Note:</u> This number is different from the access code generated when creating a case in ElsaWeb. The case code has a 2 digit letter code then a series of numbers. (Example FE-1234). This number is only given once the dealer calls the Technical Helpline and the case is accepted by a Helpline Consultant.
- The Volkswagen Technical Assistance case number(s) and closure date for each repair must be written on the back of the repair order alongside the technician punch time for the applicable repair (ERO dealers enter the contact number under the description of the repair information), and entered in the Comments Field of each eligible warranty claim.

Warranty and Parts Return Process:

- The Volkswagen Warranty Parts Return Center will notify the dealership of a part return on all closed Volkswagen Technical Helpline case numbers within one (1) business day.
- Warranty Parts Return Center personnel will:
 - o Create a shipping request in the Warranty Parts Shipping Portal (WPSP).
 - Follow up with the dealership if the requested part(s) is not picked up by FedEx in 48hrs.
- Dealership personnel should:
 - o Monitor the Outstanding Warranty Parts Report in the WPSP for new requests.
 - o Print the pre-addressed shipping label from the WPSP
 - Return the requested part(s) with repair documentation and a printed copy of the VTA case to the Warranty Parts Return Center same day.
 - If requested parts are returned prior to receiving a WPSP part return request, email the Warranty Parts Return Center (<u>vwoawprc@vw.com</u>) with comments regarding the return and provide the FedEx tracking number.
 - A printed copy of the Volkswagen Technical Helpline case number as well as all applicable required documentation must be included when sending the requested parts.
