As we continue to streamline warranty processes for dealerships, Audi Warranty has created a GFF Decoder job aid to assist you in reading the GFF logs. A number of Dealer Service personnel attending Warranty training suggested development of the decoder. We appreciate their assistance and support.

The GFF Decoder is published in Audi Warranty Online/Resource Center/Dealer Processes and Guides.

If you have questions or concerns about the GFF Decoder please contact Audi Warranty at 866.677.2834 or AudiWarranty@audi.com.
