This is an update to the November 12, 2015, communication regarding the stop sale order for all 2013-2016 model year Audi vehicles equipped with a 3.0 liter V6 TDI engine.

Audi is adding 2009-2012 model year Audi Q7 vehicles equipped with a 3.0 liter V6 TDI engine in CPO inventory to Stop Sale Code STP5. The STP5 code will be visible in Elsa for these vehicles on November 23, 2015.

Please note: this does not present a safety hazard for car owners and drivers and the vehicles remain legal to drive and resell. Owners of vehicles of these models and years do not need to take any action at this time.

As we have further information we will share it with you, our dealers. It is our first priority to work together with you to solve these issues for our customers and support you in every way we can.
