

Offboard Diagnostic Information System Service (ODIS Service)

Number: AOS-15-10

Subject: Installation on Commercially Available Laptops

Date: Oct. 26, 2015

1.0 – Introduction

In response to dealer feedback, we are pleased to announce that **starting November 2nd**, we will allow the **conditional installation** of ODIS Service on commercially available laptops. **This allowance is implemented on a trial basis of 6 months. We reserve the right to end the trial period at any time.**

To ensure trouble-free performance of ODIS Service, individuals considering installations on commercially available laptops must carefully consider the **installation conditions** and **operation notes** specified below before proceeding.

2.0 – Installation Conditions

- ☐ ODIS Service installation on commercially available laptops is intended to **supplement** (not replace) a Dealership's minimum requirement of VAS diagnostic devices. The minimum requirement of VAS 6150X, VAS 6160X and VAS 6356 (quantity per technician) **must be fulfilled**.
- ☐ Laptop specifications must meet or exceed that of VAS 6150C. E.g.: Windows® 7 Professional - 64-bit, 4GB RAM & processor, semi-rugged chassis & motherboard, solid state hard drive, no personal computing software installed etc.
- ☐ A genuine VAS 5054 Transmitter Head (new or existing) must be capable of being paired with the laptop via Windows Bluetooth.
- ☐ Installations are restricted to commercially available laptops only - **no tablets or netbooks**.
- ☐ Installations during the trial period must be registered with AoA Diagnostic Tester Software Support (DTSS). Complete and submit the **Registration Form** on Page 2 before requesting the license.

3.0 – Operation Notes

- ☐ The minimum requirement VAS diagnostic laptop & tablet devices in service at dealers are defined as **diagnostic tools intended solely for the installation and use of ODIS Service**. ODIS Service functions rely on a minimum hardware specification and the absence of personal computing software.
- ☐ VWAG will not process ODIS Service application or content feedback from non-VAS laptops.
- ☐ ODIS Service installation and use, as well as Windows operating system, device hardware, network connectivity, virus-scan & firewall issues on non-VAS laptops **are not supported by AoA DTSS**.

IMPORTANT!

- Users installing ODIS Service on laptops other than those provided by AoA do so entirely at their own risk.
- None of VWGoA, its corporate parent, its affiliates under common control or its subsidiaries are responsible for the corruption or loss of data that may result from the use of ODIS Service. The ODIS Service is subject to all terms and conditions of use provided with the ODIS Service software.

Registration Form

ODIS Service on Commercial Laptop

Instructions:

1. **Print** this page.
2. **Complete** all form fields below legibly (all fields are mandatory).
3. **Acknowledge** and **Sign** the form in the space provided.
4. **Scan** the page as a **.pdf file** and **attach to email** addressed to **softwaresupport@vw.com**
5. **Logon to eShop** using the laptop on which ODIS Service is to be installed and request the license.

Notes:

- **Registration forms received prior to November 2nd are not processed, and corresponding license requests are denied.**
- **The receipt of incomplete or illegible registration forms, and eShop license requests for laptops that are not registered will result in license request denial.**
- **Allow 24 hours for license request approvals.**

User Information	
Contact Name:	Dealer Number:
Contact Email*: *Provide the email address that will be entered in the eShop license request.	Contact Phone: Indicate if <u>Dealer direct line</u> or <u>personal cell#</u>
Device Information	
Brand:	Model #:
Processor:	Hard Drive Capacity:
Memory (RAM): -----	Windows® 7 Professional 64-bit? ☐ Yes ☐ No
