2016 Passat Perfect Delivery Inspection (PDI) - Technician and Detailer Inspections

Stock No.: _____	Dealer Number: _____	R.O. No.: _____
VIN: _____		

Technician Inspection

Initial Inspection (A workshop maintainer/charger must be used):

- Check hood latch and safety catch
- Ensure proper installation of permanent wiper blades (WINDSHIELD MUST BE CLEAN BEFORE INSTALLING)
- Test and auto charge battery with INC-940 using the "48 Hour Check" test or the VAS5903.

Record and document test code

- Install front license plate bracket if required
- Check engine coolant level (engine off/cold). Do not exceed max fill line
- Check brake and power steering fluid levels. Do not exceed max fill line
- Top-off windshield washer solvent
- Check engine oil level
- Adjust tire pressure to specification on vehicle sticker at "B" Pillar. (Do not set until day before delivery)
- Torque wheels to specification. (Refer to Elsa)
- Retrieve radio code from Elsa and check for any open Campaigns and Updates. Perform if applicable

Make sure hands and clothing are clean before entering the vehicle

- Disable vehicle transport mode
- Check all instrument cluster warning lights by cycling the ignition from off to on
- Check that all keys and remotes lock, unlock, and start vehicle (Ensure remote start function on both key remotes if equipped)
- Check operation of all exterior lights using a mirror or another technician
- Check front windshield wiper/washer functions
- Check function of tilt and telescopic features of steering wheel
- Set clock, date, and year (if applicable)
- Reset inspection/oil service interval
- Verify language and units of measurement (F°) in multi-function display and Navigation system (if applicable)
- Verify HD Radio is turned "off" in Radio/Settings Menu (Premium8/RNS510)
- Verify radio operates in AM, FM, CD, MP3 and Satellite Radio modes using applicable radio buttons and steering wheel controls
- Set memory preset stations to AM and FM stations with good reception quality by using the scan feature
- Check function of all power windows (including sunroof if equipped), program One-Touch feature, and check function of pinch protection feature
- Check seat memory and initialize programmable seats (if applicable)
- Check seat belts, seat adjusters, heated seats (if applicable)

- Install Warranty and Maintenance Booklet
- Install California Emissions Warranty Booklet
- Install Applicable Tire Warranty Brochure
- Verify child safety lock is set to unlocked position
- Check proper fuel door operation
- Check proper trunk operation using the remote and the exterior button
- Raise vehicle and perform a visual inspection for leaks and/or under body damage

Road Test:

- Odometer reading before road test: _____ after: _____
- Check engine performance and acceleration
- Store current tire pressure values for TPMS by pressing the SET button in the glove box for a minimum of 2 seconds or setting in MFI if applicable
- Check all menu settings in cluster for correct compass zone and unit - calibration (if applicable)
- Check automatic transmission operation, including automatic shift lock and Tiptronic®
- Check brake system function (including ABS)/Parking brake operation – engage and disengage, including EPB
- Check steering for pulling, vibration and steering wheel alignment
- Check climate control for mode functions (Defrost/Vent/Floor), air conditioning operation and heater operation
- Car-Net (if equipped): Vehicle must be in coverage area, have clear sight to the sky for 5 minutes, and have 5 miles registered on the odometer. Then, verify light in 3 button switch assembly located in overhead console is illuminated green. This confirms over the air vehicle registration has taken place.

After Road Test:

- Verify no warning lights are illuminated
- Retrieve fault memory, correct any DTC's, set readiness code (if necessary). Save and attach printout to Repair Order
